### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: While the Son et al patent discloses the use of cavities used as insulating sections in a heat transport device, neither Son nor the other prior art of record discloses the insulating cavity being a through hole provided in the second substrate with the first and third substrates closing the through hole.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Son et al (6,698,503) and Tonosaki et al (2005/0047090) are cited to show insulating cavities in heat transfer devices.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Teresa J. Walberg whose telephone number is 571-272-4790. The examiner can normally be reached on M-F 9:00 - 5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gene Mancene can be reached on 571-272-4930. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
